About the manufacturer

Rezaei Holding and Newgen Stone

Rezaei Holding is one of Iran's largest economic groups, with a long record in processing mineral products for domestic supply and export, and keeps pace with the latest technology in the world with an entrepreneurial outlook.

Among the holding's newest investments are its quarries and the plant that produces and supplies natural building stone under the name “Newgen Stone”. With several active quarries in the Semnan region and up-to-date Italian equipment, it is one of the region's leading producers, and its expansion programme is under way.

Why Newgen Stone?

Six reasons to choose this stone

1

Own quarries

Direct access to raw material and continuity of supply

2

Two exclusive designs

Plasma with golden veining and cream Glorious

3

Block, slab and tile

From raw material to finished product in one group

4

Italian machinery

Cutting and polishing with new-generation technology

5

For interior and façade

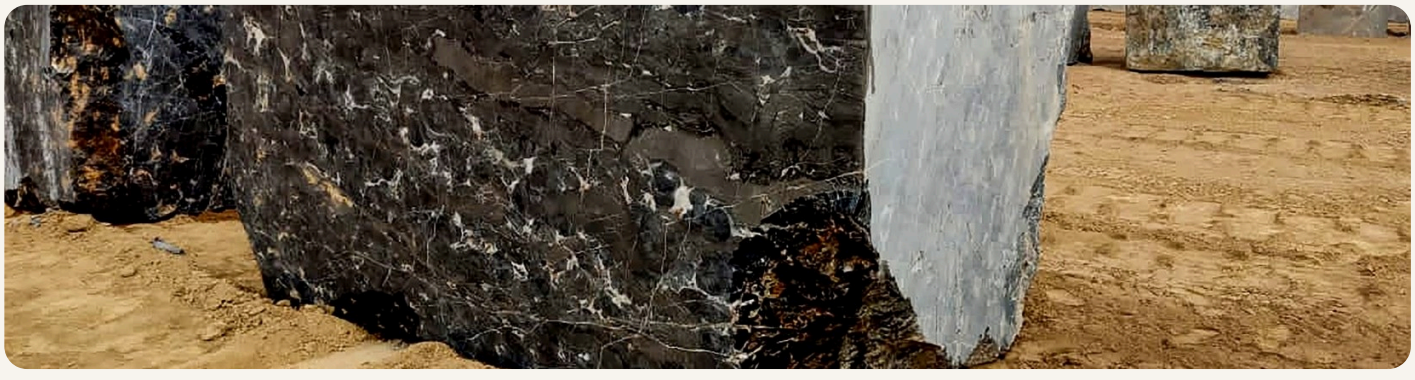

High durability against the elements

6

Holding backing

Supply to domestic and export markets

Note With Plasma (dark and striking) and Glorious (light and calm) you cover both tastes with a single supplier.

Quarries

From the heart of the earth

Newgen Stone operates several dedicated marble quarries; two are active: “Plasma” in Damghan and “Glorious” in Miami.

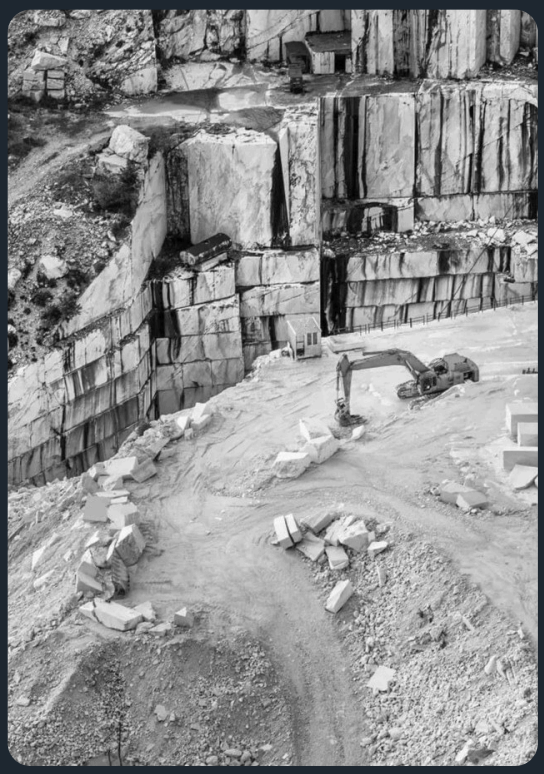

Glorious · Miami

Plasma · Damghan

Siyah Kuh quarry

The Siyah Kuh quarry in Semnan Province, covering 140 hectares with very large reserves, has been acquired by the group and will soon come into operation.

What it means for the customer

- Stable, long-term block supply
- Quality control from extraction to packing
- Room to develop new designs and colours

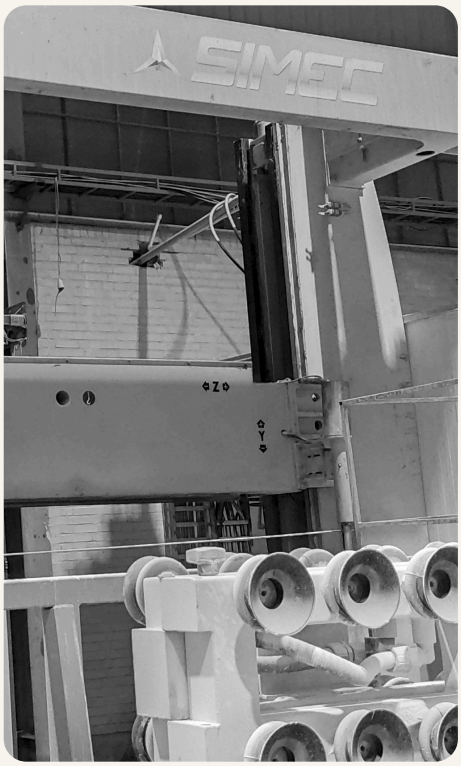

Machinery

The art of using machinery

New-generation cutting and polishing machines bring out the natural beauty of the stone.

> **“Looking at a rock from afar does not make it attractive; you have to pick it up and see its beauty and uniqueness up close.”**
>
> John Madden

Note Precise cutting and polishing mean uniform thickness and a flawless surface – and lower installation cost.

Product journey

From quarry to slab

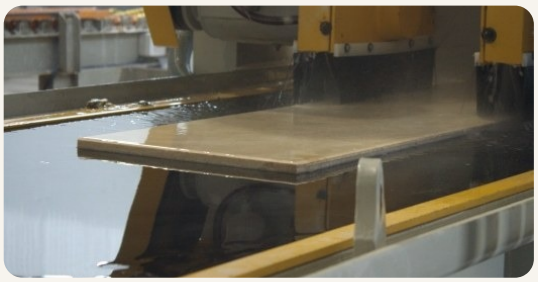

1 Extraction

Blocks from our own quarries

2 Block cutting

Italian machinery

3 Polishing and processing

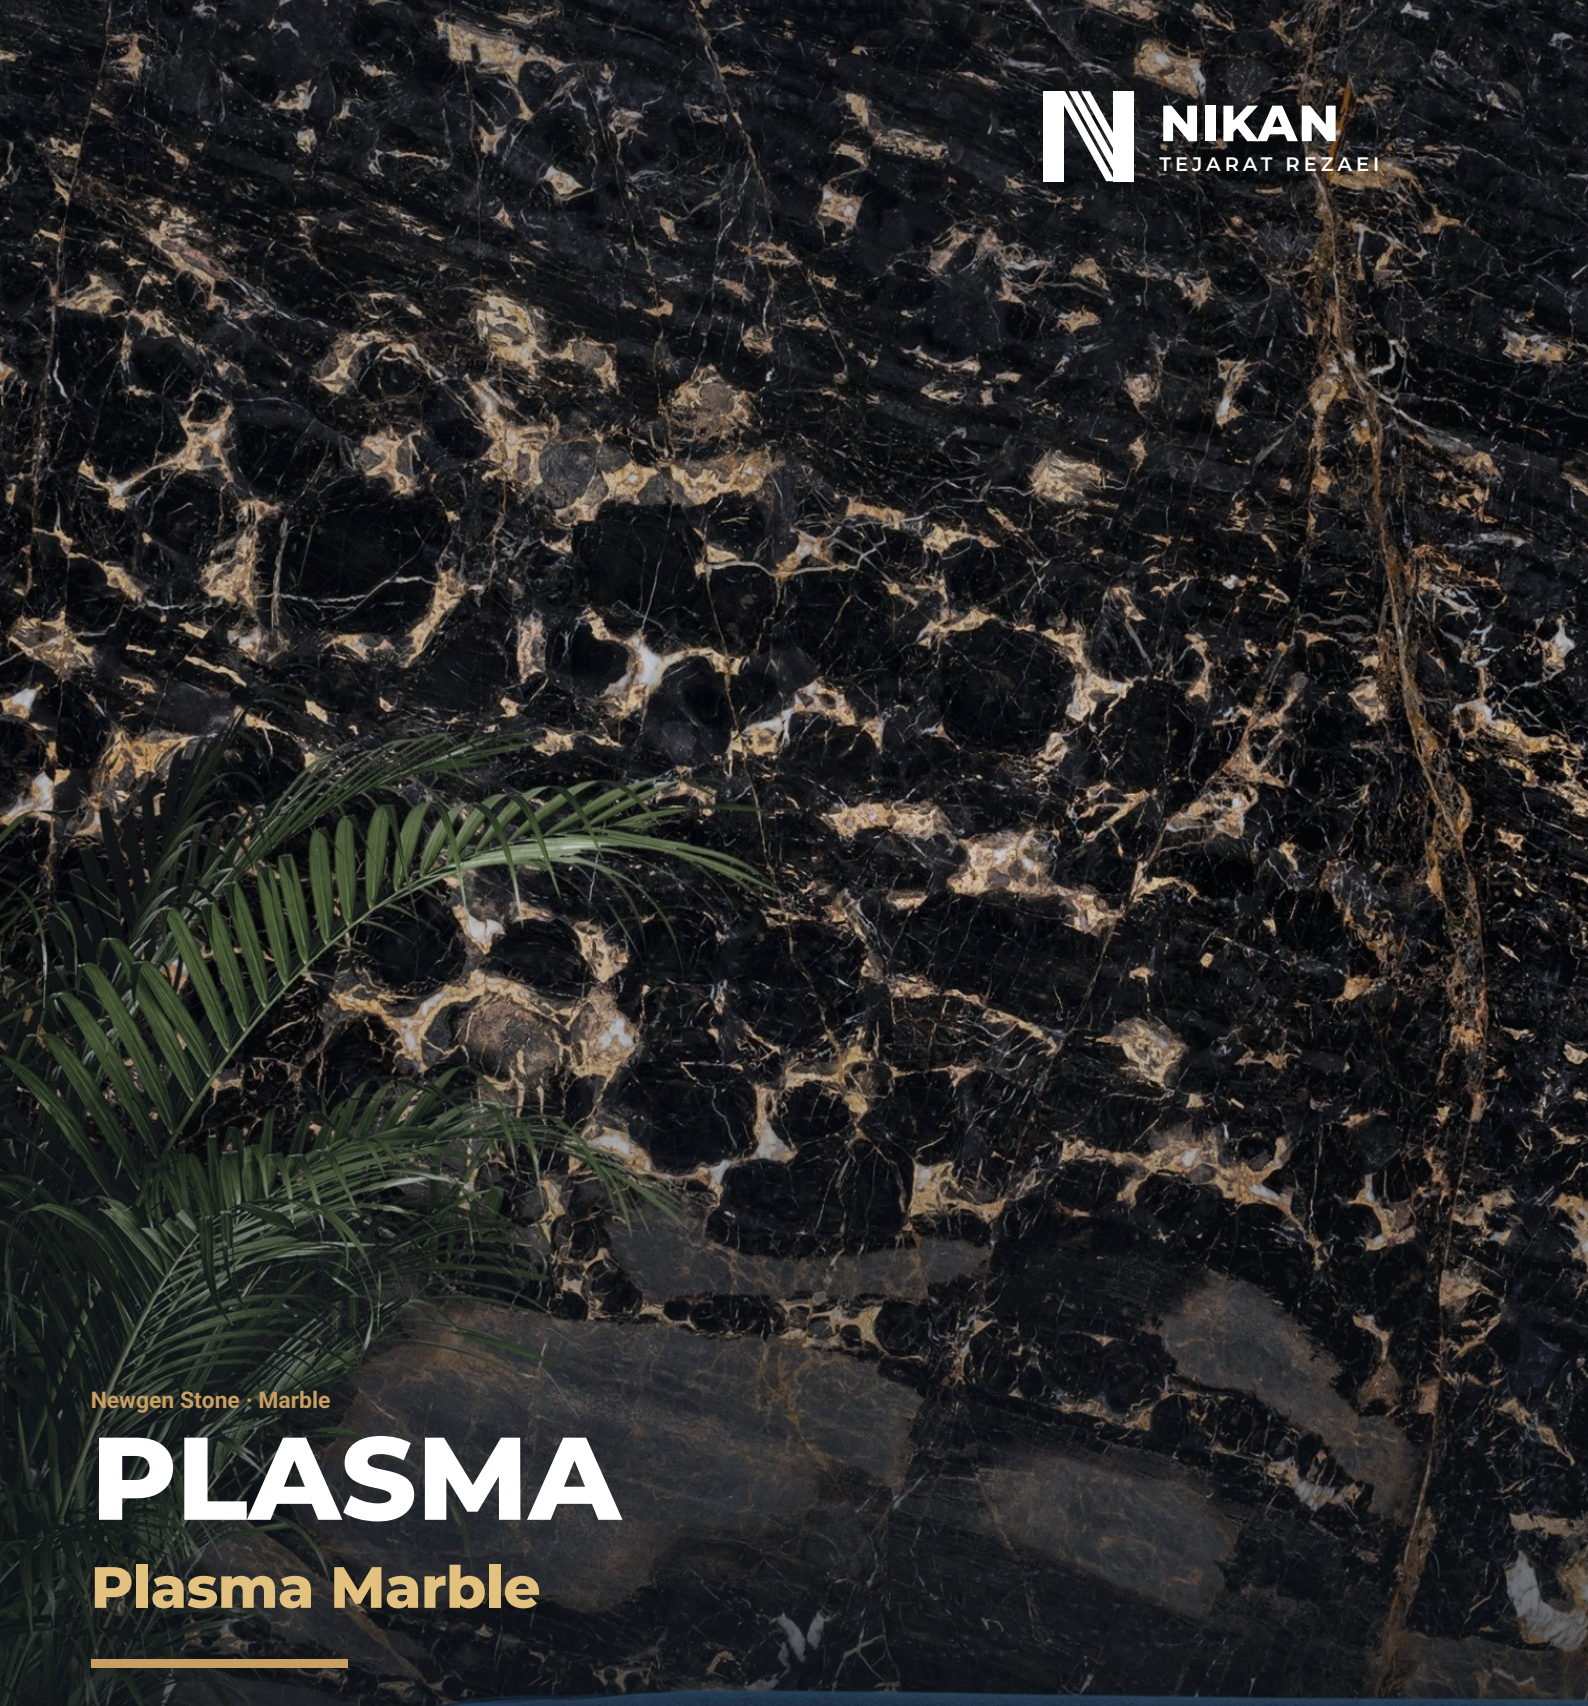

Uniform, glossy surface

4 Slab and tile

Ready to install and ship

Note Every stage happens within one group, so responsibility for quality sits with one party, not a chain of middlemen.

PLASMA

Plasma Marble

“Plasma” is one of our signature products and can confidently be called unmatched in the market: a golden pattern across the surface, scattered with contrasting shades of white and grey.

Marble

Plasma

- Golden pattern on a dark ground
- For interior and exterior use
- High durability and stability
- Suits lobbies, façades and feature walls
- In three forms: block, slab and tile

The stone's excellent durability allows varied use inside and outside buildings. With its gold and black contrast, your project becomes unique and beautiful.

Blocks | **Slabs** | **Tiles**

* Slab and tile dimensions and thickness are set to the customer's order.

Note Plasma is for projects where being noticed comes first: lobbies, hotels, feature walls and counters.

GLORIOUS

Glorious Marble

“Glorious” is one of the most beautiful cream marbles, with light brown veining and a repeating, flawless texture.

Marble

Glorious

- Cream with light brown veining
- Repeating, flawless texture
- Harmonises with other materials and colours
- Very easy to maintain and wash
- In three forms: block, slab and tile

High strength alongside a beautiful texture makes Glorious suitable for covering many kinds of surface. Its cream colour harmonises with other colours and resists environmental damage.

Blocks | **Slabs** | **Tiles**

* Slab and tile dimensions and thickness are set to the customer's order.

Note Glorious is a safe choice: it goes with any décor and appeals to a wide range of tastes.

Three supply forms

Block, slab, tile

Every customer wants a different form; use this table to find the right one.

Blocks

Block

Raw extracted stone

Suitable for: Stone-cutting plants, exporters and importers

Slabs

Slab

Large cut and polished sheets

Suitable for: Stone workshops, architects, façade and décor projects

Tiles

Tile

Cut pieces in custom sizes

Suitable for: Contractors, builders and building-material stores

Note Slab and tile dimensions and thickness are set to order; when enquiring, state the intended use and the sizes you need.

Selection guide

Plasma or Glorious?

Criterion	Plasma	Glorious
Colour and pattern	Black with golden veining	Cream with light brown veining
Feel of the space	Striking, luxurious, accented	Calm, light, warm
Texture	Bold, one-of-a-kind pattern	Repeating, flawless texture
Combining with other materials	With a gold and black contrast	Matches and blends with most colours
Durability and care	Excellent durability, inside and out	Resists environmental damage, easy to wash
Quarry	Damghan	Miami (Semnan)

Lobbies, hotels, feature walls, counters — **Plasma**

Floors and walls of calm spaces, bathrooms, living rooms — **Glorious**

Note If you can't decide, see a Plasma sample and a Glorious sample side by side; you will notice the difference at once.
